

## Global Warming

Written by Dr. John E. Russell Sr - Last Updated Sunday, 31 December 2017 01:51

---

Global Warming is a theory that the world is getting progressively warmer. Some scientists hold to this theory and others do not. Probably, the best theory is that the earth temperature goes through long cycles. Temperatures have recently warmed and may cool to the point of an ice age. Factors may include variations of temperature on earth caused by our sun's heat output varying, distance of the Earth from the sun, movements of lithosphere plates and the composition of the atmosphere (Information from Google search).

Leaving speculation, the Apostle Peter tells of God's plan in the end times:

By the same word the present heavens and earth are reserved for fire, being kept for the day of judgment and destruction of the ungodly. But do not forget this one thing, dear friends: With the Lord a day is like a thousand years, and a thousand years are like a day. The Lord is not slow in keeping his promise, as some understand slowness. Instead he is patient with you, not wanting anyone to perish, but everyone to come to repentance. But the day of the Lord will come like a thief. The heavens will disappear with a roar; the elements will be destroyed by fire, and the earth and everything done in it will be laid bare. Since everything will be destroyed in this way, what kind of people ought you to be? You ought to live holy and godly lives as you look forward to the day of God and speed its coming. That day will bring about the destruction of the heavens by fire, and the elements will melt in the heat. But in keeping with his promise we are looking forward to a new heaven and a new earth, where righteousness dwells.

2 Peter 3:7-13, NIV

The Amplified Bible translates verse 10 like this:

But the day of the Lord will come like a thief, and then the heavens will vanish (pass away) with a thunderous crash, and the [<sup>N1</sup>material] elements [*of the universe*] will be dissolved with fire, and the earth and the works that are upon it will be burned up.

Peter 3:10, AMPC+

This is the true "Global Warming" and it includes the universe! So, what action should we take now? We must avoid this catastrophe by following the only escape plan that God has created.
